- Mike Kuhn, Shareholder, Vrakas CPAs + Advisors

Program - The Robots Are Coming - Artificial Intelligence in Manufacturing

Advancing AI Wisconsin is a grassroots initiative to increase awareness of a set of technologies often referred to as "Digital Disruption Technologies" and their impact on Wisconsin businesses, workforce needs, educational programming and the State overall.

Oliver Bueche

The most recognizable technology category which impacts all others in some form is Artificial Intelligence (AI), hence the choice of name for our initiative: Advancing AI Wisconsin. It also indicates that our initiative aims to do more than just create awareness. We want to set in motion a positive dynamic regarding the adoption of AI (and other technologies) and the management of their impact.

Natraj Shanker
